European Cheer League

Summer Open is part of the European Cheer League (ECL). ECL is a league consisting of several competitions throughout Europe during 2018. The main goal of the ECL is deciding which teams are performing best throughout the year and not only at one single competition. The ECL give the teams the opportunity to compete against each other across Europe, although they do not necessarily compete at the same venues. A winner will be declared in each category when all the competitions are done – and the winners of select categories will qualify directly to the European Championship the following year – with all registration fees paid. In addition, the winners of the senior categories will receive prizes and discounts from Varsity.

For more information about the ECL please go to ECU's homepage:
